

UNSW
SYDNEY

Australia's
Global
University

As a leader today, you must navigate your team through increasingly complex and uncertain times while continuing to deliver value for the organisation. This course will provide you with tools and techniques to adapt and lead with agility, applying a human-centred approach to respond to challenges and drive results.

Over approximately 14 hours, delivered across two weeks of live virtual workshops and action learning, you will develop your leadership style to maintain performance, improve communication and collaboration, and lead the transition to a new way of working.

What you will learn

By taking part in a series of online modules, comprised of virtual workshops, action learning and coaching, you will develop the leadership skills and tools to:

- Apply an adaptive leadership style to lead more effectively in remote working environments
- Understand yourself as a leader and what drives you, your values and your unconscious biases to become a more human-centred leader
- Maintain team performance and accountability through stronger collaboration, communication and relationships
- Challenge existing work habits that no longer serve you in the current environment, building your ability to navigate uncertainty and respond to emerging challenges
- Lead your team through the transition letting go of old ways of operating and moving beyond change immunity in order to build a positive human-centred culture
- Use experiments to effectively trial new ways of working, allowing you to respond adaptively to the needs of the moment

LEADING AN ORGANISATION THROUGH DYNAMIC ENVIRONMENTS

Who should attend

This course is designed for existing or aspiring leaders who are looking to step up to the challenges of leadership in today's dynamic business landscape.

How you will learn

Led by experts in leadership, change and strategy, you will take part in live virtual workshops, interspersed with action learning and coaching to help you lead effectively through challenging times.

Over two weeks, you will take part in approximately 14 hours of online learning and live workshops.

You will utilise the AGSM Navigator, a custom-built platform designed to work with your existing social and communication tools, like WhatsApp and Zoom.

Virtual workshop sessions bring a real-time, social learning environment to you, where you can share challenges and experiences, learn from your peers and your expert facilitator, and build a community of practice.

In between the workshop sessions, you will take part in a range of supported learning experiences independently and with the group to develop and embed learning.

To maintain the interactivity and ensure participants can achieve their outcomes, each workshop is limited to 25 participants.
